

## **REGION 2 2009 PROJECT BRIEF**

# **Midvalley Highway Environmental Impact Statement**

### **The EIS study team:**

- **Conducts field studies and analyzes data**
- **Identifies issues of concern from those who live or work in the project area**
- **Identifies possible design or alignment options**

**UDOT Region 2**  
2010 South 2750 West  
Salt Lake City, UT 84104

**Randy Park, Director**  
801 975-4805

**Jason Davis**  
**Asst. Director**  
801 975-4805

**Ben Huot**  
**Project Manager**  
801 887-3401

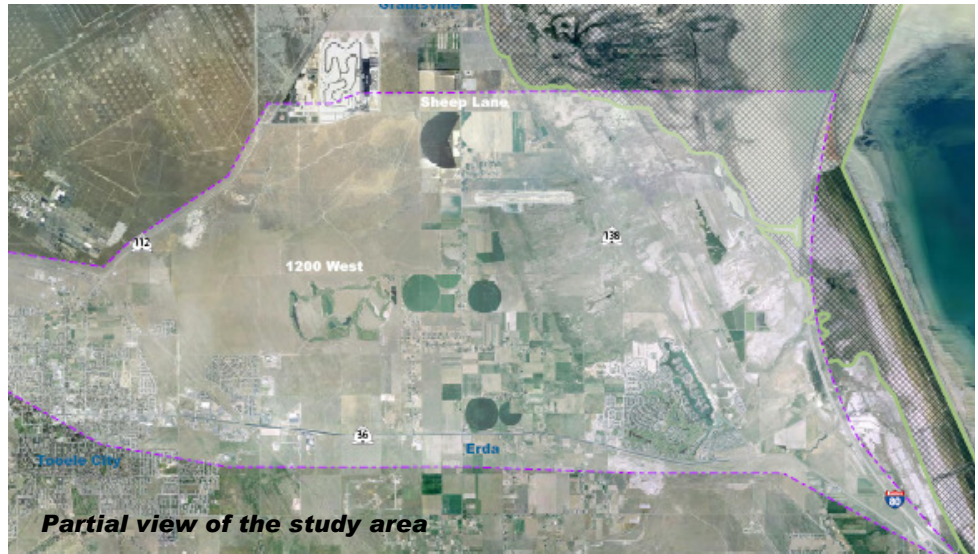

### **Legislative Districts:**

**Senate: 17**

**House: 21**

**Anticipated  
completion date:**

**December 2009**

### **A joint process conducted by UDOT, Tooele and FHWA**

UDOT, Tooele County and the Federal Highway Administration (FHWA) has initiated an Environmental Impact Statement process (EIS) to document the need for a potential new highway in Tooele County. The EIS project team has the important responsibility to make sure all alignments meet the purpose and need stated in the EIS. Potential alignments must provide additional north-south transportation capacity, improve mobility within the Tooele valley area, reduce congestion of SR-36 and reduce congestion at the Lake Point interchange.

Two alignments have been identified as meeting the purpose and need of the EIS. Midvalley Highway East is a 4-lane freeway with a northern connection to I-80 and a southern connection transitioning to SR 36 via an arterial roadway. Midvalley West is a 4-lane freeway with a northern connection to I-80 and a southern connection transitioning to SR 36 via an arterial roadway. Midvalley West also splits into two possible options between 1000 and 3400 North.
